

SACHIN S

Cybersecurity Specialist | BCA Student

+91-9207130662 | sachinsubhash286@gmail.com

Haripad, Kerala, India | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated BCA 3rd-year student specializing in cybersecurity with hands-on experience in ethical hacking, network security, and vulnerability assessment. Certified in CICSIA from Red Team Hackers Academy. Passionate about identifying and mitigating security threats through real-world projects and continuous learning. Seeking an opportunity to apply technical expertise in a cybersecurity role.

EDUCATION

Bachelor of Computer Applications (BCA) | [Chanakya University, Devanahalli, Bengaluru](#) | 2023 – 2026

Major – Software Engineering | Minor – Cyber Security | CGPA: 8.34 / 10

Relevant Coursework: Network Security, Operating Systems, DBMS, Data Structures & Algorithms, Web Technologies, Cloud Computing, Cryptography, Digital Forensics, Software Testing, Application Security

TECHNICAL SKILLS

- Cybersecurity: Ethical Hacking, Penetration Testing, VAPT, Network Security, Reconnaissance, Exploit Development
- Security Tools: Kali Linux, Metasploit Framework, Nmap, Wireshark, Burp Suite, John the Ripper, WAPP
- Programming: Python, Java, HTML/CSS, JavaScript
- Networking: TCP/IP, DNS, HTTP/S, Firewalls, VPN, OSI Model, Network Security
- Database & Cloud: MySQL, DBMS, Cloud Computing Fundamentals
- OS: Kali Linux, Ubuntu, Windows Server
- Other Tools: Git, GitHub, VS Code, VirtualBox

PROJECTS

Web Application Penetration Testing – Altoro Mutual | [External + Internal](#) | May 2026

Tools: Nmap, Gobuster, OWASP ZAP, Burp Suite, testssl.sh, WhatWeb | Methodology: OWASP Top 10 (2021) & Testing Guide v4

- Conducted a full-cycle pentest (black-box external + grey-box internal) on demo.testfire.net, covering network reconnaissance, service enumeration, SSL/TLS analysis, and web application security testing.
- Discovered 22 vulnerabilities: 2 Critical (SQL Injection auth bypass, unauthorized fund transfer), 2 High (Reflected XSS, Weak TLS), 4 Medium (CSRF, missing security headers), and 4 Low/Informational findings.
- Manually validated critical exploits including authentication bypass via SQL Injection and session hijacking via XSS payload; delivered two professional pentest reports with CVSS ratings, PoC evidence, and remediation roadmap.

Auto-Scaling Inference Engine | [Chanakya University Major Project](#) | Feb – May 2026

Stack: FastAPI, HuggingFace Transformers, Docker, Kubernetes (K8s), Horizontal Pod Autoscaler

- Built a real-time ML inference API using FastAPI integrated with a pre-trained HuggingFace transformer model for sentiment analysis with confidence scoring.
- Containerized using Docker and deployed on Kubernetes with NodePort services; implemented Horizontal Pod Autoscaler (HPA) for dynamic CPU-based scaling.
- Executed 4 Agile sprints (8 weeks) covering API development, K8s deployment, load testing, and performance optimization — validating system stability under concurrent traffic.

Email Automation Bot & Django REST Backend | Oct 2025

Stack: Python (OOP/IMAP/SMTP), Django, Django ORM, openpyxl, REST APIs, MySQL

- Developed a class-based Python Gmail automation agent that authenticates via IMAP, filters emails by subject, processes Excel attachments, and sends formatted HTML reports via SMTP.
- Built a full Django REST backend with ORM-based models, migrations, URL routing, views, and CRUD APIs for multi-entity data management.
- Followed Python coding standards with docstrings, debugger-based testing, and virtual environment setup using requirements.txt.

CERTIFICATIONS

- CICSА – Certified IT Infrastructure and Cyber SOC Analyst | Red Team Hackers Academy (June 2023)
- Introduction To Ethical Hacking | Offenso Hackers Academy (February 2023)
- Kubernetes Security Workshop | RedTeam Security Summit (March 2023)
- AI Tools & ChatGPT Workshop | be10x (March 2026)
- Ethical Hacking and Cyber Security Workshop | Vaultofcodes (June 2026)

ACHIEVEMENTS & EXTRACURRICULAR

- Performed practical security testing on vulnerable applications using WebGoat and bWAPP.
- Participated in South Zone Football Tournament.
- Completed CICSА Certification from Red Team Hackers Academy (June 2023).

LANGUAGES

- English – Professional Proficiency
- Malayalam – Native / Fluent
- Hindi – Conversational / Fluent
